

# INVITATION TO EXHIBIT

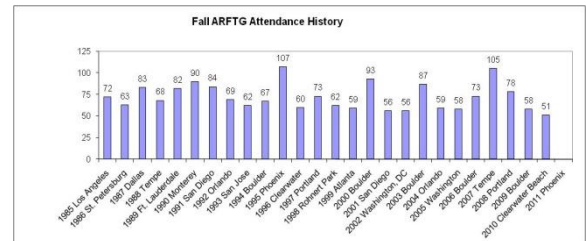

## 77th ARFTG CONFERENCE Baltimore, Maryland June 10th, 2011

The Automatic RF Techniques Group will hold its 77th ARFTG Conference at the Hilton Baltimore Convention Center Hotel in conjunction with the 2011 IEEE MTT-S International Microwave Symposium in Baltimore, Maryland. The conference technical theme is “Design and Measurement of Microwave Systems” and will also cover all aspects of microwave measurements.

## 78th ARFTG CONFERENCE Phoenix, Arizona Fall, 2011

The Automatic RF Techniques Group will hold its 78th ARFTG Conference in Phoenix, Arizona.

During these Conferences there will be a tabletop exhibits area for the display of microwave measurement equipment, simulation tools, and associated products. On behalf of the Exhibits Committee I would like to extend an invitation to exhibit. This is an excellent opportunity to present your company’s latest products and techniques to an exceptionally qualified audience.

The exhibits are in the break and refreshment area adjacent to the technical program hall, which will ensure exposure to all of the conference participants. This is a valuable opportunity to exhibit your products to a focused measurement community in the comfortable, personal atmosphere afforded by ARFTG.

Please contact me if you have any questions about this opportunity. We look forward to seeing you in Baltimore and Phoenix!

Brett Grossman, Chair  
ARFTG Exhibits Committee
