

# INVITATION TO EXHIBIT

## 86th ARFTG CONFERENCE Atlanta, Georgia December 1-4, 2015

ARFTG will hold the 86th ARFTG Microwave Measurement Conference at the Georgia Tech Hotel and Conference Center in Atlanta, Georgia. The technical theme of the conference is *“Microwave Measurements with Applications to Bioengineering and Biomedicine”* and will also cover all aspects of microwave measurement.

During this conference there will be an exhibits area for the display of microwave measurement equipment, simulation tools, and associated products. On behalf of the Exhibits Committee, I would like to extend an invitation to exhibit. This is an excellent opportunity to present your company’s latest products and techniques to an exceptionally qualified audience.

The exhibits area will be adjacent to the technical program hall, which will ensure exposure to all of the conference participants. This is a valuable opportunity to exhibit your products to a focused measurement community in the comfortable, personal atmosphere afforded by ARFTG.

The exhibitor application and rules document is accompanying this invitation and is also located at [www.arftg.org](http://www.arftg.org) on the 86th ARFTG Conference’s web page (<http://www.arftg.org/index.php/upcoming-conference/upcoming-conference-2>). Please contact me if you have any questions about this opportunity. I hope that you will join us in Atlanta!

Joe Gering, Chair
